

Home Composting

Watch nature's recycling miracle

Composting is a natural process where organic materials decompose and are recycled into a dark, crumbly, earthy smelling soil conditioner known as "compost". Compost improves soil structure and moisture retention, and contributes to healthy plant growth by providing plant nutrients.

For guidance on how to compost visit the links below:

<https://njaes.rutgers.edu/fs811/>

<https://njaes.rutgers.edu/FS074/>

TO ENTER FOR A CHANCE TO WIN:

1. Take a photo of your compost bin or pile.
2. Follow the instructions of submission on the Sustainable HP webpage
<https://sustainablehighlandpark.org/>
3. DON'T FORGET TO INCLUDE YOUR NAME(S) AND YOUR HP ADDRESS

Thank you for participating!
